

About the club:

The robotics club serves as a place of community for the students to enhance their skills in the field of robotics, discuss and learn about the design, repair and maintenance of robots. A robotics engineer learns a blend of mechanical engineering, electrical engineering and computer science and principles to develop autonomous machines that perform a wide range of complex tasks.

Objectives:

- ♦ To inspire young minds to be the driving force in the field of robotics
- ♦ It is an opportunity to apply knowledge creatively, to see how systems interact, both with each other and with the environment
- ♦ To develop professional engineering skills among the students which will help them in professional life

Faculty Coordinator:

Mrs. **B. Mamatha**

Student Coordinators

R. Divya Sahithi-III yr IT

V. Sowmya Reddy-III yr IT

N. Guna Priya-III yr IT
