#### DESCRIPTION

After internal hackathon was conducted , selected teams were made to apply for External hackathon. Three teams were selected from our department for SIH Grand Finale.

The selected teams were allotted with various nodal centres across the South India. Student teams went to the nodal centres along with their mentors .

The competition was conducted for 36 hours . The evaluation was done in three phases. For every phase , new challenges were asked to solve and in the final phase on the whole, the judges expected a whole product .

Even though that was not a success story that was a great experience for both students and mentors.
