IEEE is the world's largest technical professional organization dedicated to advancing technology for the benefit of humanity.

For over a century, IEEE has sponsored various programs to honor achievements in education, industry, research, and service, celebrating distinguished colleagues, teachers, and corporate leaders who have made a lasting impact on humanity, technology, and the profession.

Membership:

IEEE members are a community of more than 400,000 technology and engineering professionals united by a common desire to continuously learn, interact, collaborate and innovative.

Communities:

As the world's largest technical professional organization, IEEE offers a number of ways to get involved with technical and local communities. These communities are active participants in research and authorship, conferences, and important conversations about today's most relevant technical topics locally and globally.

Purpose:

IEEE's core purpose is **to foster technological innovation and excellence for the benefit of humanity.**

Standards:

IEEE nurtures, develops, and advances the building of global technologies. As a leading developer of industry standards in a broad range of technologies, IEEE SA drives the functionality, capabilities, safety, and interoperability of products and services, transforming how people live, work, and communicate. IEEE standards provide the bricks and mortar for a globally level playing field for innovation; protect public safety, health, and wellbeing; and contribute to a more sustainable future.

IEEE chapter @ CMREC:

IEEE Chapter @ CMREC started in 2015-16 and renewal again in December 2022. Bright students are given challenging tasks that require better comprehension skills analytical powers and practical knowledge. To encourage bright students, based on I year result 24 students are given with IEEE membership from college management. Following activities can be carried out by the IEEE Chapter

- To organize & promote Lectures by experts eminent professional, techno craft, industrialist technical education field various technical/non technical subjects/topics R&D organization ethics, moral values & spiritualism
- To organize & promote training programs specialized equipments, software's modules etc
- Creating awareness in the students about the career opportunities & challenges in technical educations developing interest towards research work and teaching profession in them inculcating professional ethics in them developing flair of patriotism environment awareness
- To organize & promote visit of industries Research & Development laboratories

Choosing students @ CMREC:

Bright students are given challenging tasks that require better comprehension skills analytical powers and practical knowledge.

II year students' selection:

To encourage bright students, based on I year result 20 students are given with IEEE membership from college management

III year students' selection:

To encourage bright students, based on II & III year result 4 students are given with IEEE membership from college management
