

July – Dec. 2021

CSENAPSE

Volume-18

Department of COMPUTER SCIENCE AND ENGINEERING

Our Sincere Thanks to

Chairman: **Sri. Ch. Narsimha Reddy**
Vice-chairman : **Sri. Ch. BhoopalReddy**
Secretary: **Sri .Ch. Srisailam Reddy**
Principal: **Dr. A. Srinivasula Reddy**
Hod-cse: **Dr.Sheo kumar**

Our Motto is “Think Placement Think CMR”

Message From Management

Sri. Ch. Narsimha Reddy
Chairman

I am delighted to know that CSE Department Newsletter CSENAPSE carrying its dept. news and achievements of its staff and students who earn credits for the institution is begin released. It was our own wish to reach out to teachers, parents, students, all our friends and well wishers to provide a breif insight into our programs and activities on this gracious occasion.

Sri. Ch. Bhoopal Reddy
Vice- Chairman

The newsletter provides a platform for communicating among the members playing a key role in supporting the institution to fulfill its objectives. I'm very excited to offer you this news letter we hope that updates in our institution will keep you informed and connected.

Sri. Ch. Srisailam Reddy
Secretary & Correspondent

Its my great pleasure to extend heartfelt greetings to the leaders of the first issue of the newsletter of CSE Dept. I convey my hearty greeting and warm wishes to all the staff and students of CSE Dept, CMREC for their excellent performance during this academic year 2021-22. In a short span of time our college had achieved tremendous accolades and has shown immaculate skill in countering the challenge in engineering field. I congratulate all the students and staff for having reached their heights of performance.

Dr.A.Srinivasula Reddy
Principal

It gives me immense pleasure to release the Newsletter of CSE Department. A newsletter is an excellent information between the college and the outside world. I convey my best wishes to the faculty and the students of CSE Dept. and wish that they Continue good work in the field of technology

It gives me immense pleasure to the Newsletter of CSE Department, CSENPASE. I am extremely happy in releasing this newsletter which highlights the activities conducted by our dept in this Academic Year 2020-21. I congratulate all the faculty members on their sincere endeavors for their Professional Dept and achieving excellence.

Dr.Sheo Kumar
HOD-CSE

Dr. C.N.Ravi
Professor & Dean

Dr. C.N Ravi is having 23 years of experience in Teaching and 3 years of experience in Industry and he done PhD from Bharath University, Tamilnadu with specialization in Data Mining. He had published 12 papers in various International and National Journals. In addition to that he attended several conferences and workshops

About the Department

Established in the year 2010, the department has B.Tech degree in Computer Science & Engineering with an intake of 240 and Master's Degree in Computer Science & Engineering with an intake of 12. It has the sophisticated and necessary infrastructural facilities required for imparting high quality education and the department is completely well structured to meet the contemporary needs of the industry. Imparting high quality education is supported by well qualified and experienced faculty, further support is extended by technically skilled and competent programmers. Seminars, Workshops are conducted in the department to keep faculty and students updated with latest developments in various technologies. The students in the department are moulded into competent software professionals, to face the challenges of the Computer Science and Information Technology sectors

➤ ABOUT CMREC

CMR Engineering College, popularly known as CMREC, was Established in 2010 in a vast area of 10 acres and a built up area of 1,75,000 sq.ft.. The college is affiliated to JNTU Hyderabad and is approved by All India Council for Technical Education, New Delhi.

The college provides a perfect ambience of aesthetically designed buildings. CMR Engineering College (CMREC) is situated on Hyderabad – Nagpur highway(NH7), tucked away from the hustle and bustle of the city and possessing halcyon surrounding. The college is an urban green lung with awe inspiring Wi-Fi enabled infrastructure, well ventilated classrooms, laboratories to foster technological skills, and libraries where books span time, space, culture and genre. To aid the process of learning we have a state-of-art auditorium where various events are conducted to showcase the creative flair of the students. As a provision for physical fitness, the college also has a sports field and indoor stadium.

CMREC was started with 300 seats with the Bachelor Degree in Engineering Programme, the institute now has total intake of 1060 by offering seven Under Graduate Courses in ECE, CSE, IT, CSE (AI&ML), CSE(DS),CSE(CS) and MECH and three Post Graduate Courses in CSE, VLSI & TE. CMREC's beautiful facility and rich campus is distinctively different from other college campuses across Hyderabad because of the dynamic community of supportive peers, caring and mentoring professors, and friendly staff who work here with commitment. It is an ideal setting for scholastic dedication, pleasant interaction andunbounded pragmatic exploration.

Institutional Vision and Mission

VISION OF THE INSTITUTION:

- To be recognized as a premier institution in offering value based and futuristic quality technical education to meet the technological needs of the society.

MISSION OF THE INSTITUTION:

- To impart value based quality technical education through innovative teaching and learning methods
- To continuously produce employable technical graduates with advanced technical skills to meet the current and future technological needs of the society
- To prepare the graduates for higher learning with emphasis on academic and industrial research

About Vision and Mission

If You Think of Vision and Mission as an Organization's Head and Heart the Values it holds are its Soul.

--- Buzotta

CSE Department Vision and Mission are articulated in line with the Vision and Mission of our institution.

Department Vision

To produce globally competent and industry ready graduates in Computer Science & Engineering by imparting quality education with the know-how of cutting edge technology and holistic personality.

Department Mission

1. To offer high-quality education in Computer Science & Engineering in order to build core competence for the graduates by laying a solid foundation in Applied Mathematics and program framework with a focus on concept building.
2. The department promotes excellence in teaching, research, and collaborative activities to prepare graduates for a professional career or higher studies.
3. Creating an intellectual environment for developing logical skills and problem-solving strategies, thus developing and proficient computer engineers to compete in the current global scenario.

Program Educational Outcomes (PEOs)

PEO1: Excel in professional career and higher education by acquiring knowledge of mathematical computing and engineering principles.

PEO2: To provide an intellectual environment for analyzing and designing computing systems for technical needs.

PEO3: Exhibit professionalism to adapt current trends using lifelong learning with legal and ethical responsibilities.

PEO4: To produce responsible graduates with effective communication skills and Multidisciplinary practices to serve society and preserve the environment.

Program Specific Outcomes (PSOs)

1. **Professional Skills and Foundations of Software development:** Ability to analyze, design and develop applications by adopting the dynamic nature of Software developments.
2. **Applications of Computing and Research Ability:** Ability to use knowledge in cutting edge technologies in identifying research gaps and to render solutions with innovation.

Program Outcomes (POs)

Engineering Graduates will be able to satisfy these NBA graduate attributes:

1. **Engineering knowledge:** Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.
2. **Problem analysis:** Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.
3. **Design/development of solutions:** Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.
4. **Conduct investigations of complex problems:** Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.
5. **Modern tool usage:** Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.
6. **The engineer and society:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.
7. **Environment and sustainability:** Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.
8. **Ethics:** Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.
9. **Individual and team work:** Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.
10. **Communication:** Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
11. **Project management and finance:** Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.
12. **Life-long learning:** Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

Student Activities Council

College is about seeing things from a fresh perspective. Opening our eyes to more than just studies. The SAC brainstorms all kinds of interesting and unique programs, events and services that make the campus feel alive - with a mindful eye to diversity at all times. Most of what we plan will change your life for the better in social, physical, intellectual or emotional ways. Our campus is inspiring. The SAC works hard to keep it that way.

We are organizing three clubs under Students Activities Council:

1. Robotics Club
2. Artificial Intelligence Club
3. Coding Club

Robotics Club

The Robotics Club is designed to inspire young people to be science and technology leaders by engaging them in exciting mentor-based programs. These programs will build science, engineering, and technology skills that inspire innovation and that foster well-rounded life capabilities that include self-confidence, communication, and leadership. Through participation in this club, we will create problem solvers and develop skills for computer work, collaboration, as well as programming and robotics

Artificial Intelligence Club

Our club helps students from a variety of backgrounds develop a practical understanding of computational intelligence (AI) and work together to apply programming techniques to games, robotics, or any other AI-related project you can think of. We are currently a small and upcoming club on campus, consisting of students from a variety of degree programs interested in sharing a better understanding of artificial intelligence (AI) problems, techniques for implementing their respective solutions, and keeping abreast of current developments in the domain.

Coding Club

The Coding Club is designed to inspire young people to be science and technology leaders by engaging them in exciting mentor-based programs. These programs will build science, engineering, and technology skills that inspire innovation and that foster well rounded life capabilities that include self-confidence, communication, and leadership. Through participation in this club, we will create problem solvers and develop skills for computer work, collaboration, as well as programming with various programming.

Computer Society of India

The seed for the Computer Society of India (CSI) was first shown in the year 1965 with a handful of IT enthusiasts who were a computer user group and felt the need to organize their activities. They also wanted to share their knowledge and exchange ideas on what they felt were a fast emerging sector. Today the CSI takes pride in being the largest and most professionally managed association and for IT professionals in India. The purposes of the Society are scientific and educational directed towards the advancement of the theory and practice of computer science and IT. The organization has grown to an enviable size of 100,000 strong members consisting Scientists, Academicians, Project Managers, CIO's, CTO's & IT vendors to just name a few. It has spread its branches all over the country.

Currently having more than 500 student's branches and rooted firmly at 79 different locations, CSI has plans of opening many more chapters & activity centers in smaller towns and cities of the country. The idea is to spread the knowledge, and provide opportunities to as many interested candidates as possible.

Number of Students Registered In CSI

S.NO	Academic year	Number of Students Registered
1	2021-2022	157
2	2020-2021	No Students Registered
3	2019-2020	90
4	2018-2019	133
5	2017-2018	126
6	2016-2017	126
7	2015-2016	82
8	2014-2015	91
9	2013-2014	10

Workshops and Guest lecturers Attended under CSI

S.No	Event	Date	Topic	No of Participants
1	Webinar	20-11-2021	ARTIFICIAL INTELLIGENCE AND ITS IMPACTS	100

Educational Institution Membership Number: 101937

The Indian Society for Technical Education (ISTE) is the leading National Professional non-profit making Society for the Technical Education System in our country with the motto of Career Development of Teachers and Personality Development of Students and overall development of our Technical Education System. At present, ISTE has a very large and an effective membership base consisting of more than 1,02,985 Life Members, 5,54,094 Student Members, 2410 Institutional Members (including IITs, IISc., NITs and other leading technical institutions), 1214 Faculty Chapters and 1322 Students' Chapters and 17 Sections throughout the country.

Webinar

On

“Artificial Intelligence and Its Impacts”

Title of Event : ARTIFICIAL INTELLIGENCE AND ITS IMPACTS

Date of Event : 20-11-2021(Timing 2.00 P.M TO 3.00 P.M)

Total No. of Participants : 100(Registered)

Student Participants : 98 -

Faculty Participants : 2

Venue : CMR Engineering College (Virtual Mode)

Coordinators : A.Punitha & K.Mamatha

Aim & Objective: to analyze and understands the Artificial Intelligence and its Impact

Aim:

To analyse about objective of day Artificial Intelligence powers many programs and services that help us do every day things such as connecting with friends, using an email program, or using a ride-share service.

Description:

This specific Expert Talk gives good idea about the data. Discuss about Artificial intelligence can dramatically improve the efficiencies of our workplaces and can augment the work humans can do . When AI takes over repetitive or dangerous tasks, it frees up the human workforce to do work they are better equipped for—tasks that involve creativity and empathy among others.

FDP

On

“Challenges and Opportunities in Cyber Security with Current Tools and Techniques: A Research

Perspective”

Date of Event: July 5th - 9th, 2021

Total No. of Participants: 667

Aim & Objective:

The major objective of the Faculty Development Programme (FDP) is to explore the research areas in Cyber Security with novel presentations to the Challenges and Opportunities towards the most demanding area of Security and Privacy. The FDP is in relation to Threats & Attacks Propagation through Networks with current Defense Mechanisms; Cyber Security designed Tools–Techniques–Infrastructures, Internet of Things (IoT), Block chain Technologies, Cloud Computing, Fog/Edge Computing, Smart Grid Computing, Digital Right Management, Digital Forensics, cost cutting through Light-Weight processing ECC and Non commutative Cryptography approaches. All these interest will be collaborated to big data management & analysis, overhead reduction with research perspective to the new innovative techniques. Therefore, participants can learn and understand a broad range of current used Technologies or Tools or Techniques with specialties in the proposed interests with hands-on-experience, research motivations, contribution towards paper publications and value additions to nation building.

Description:

The FDP was helpful to the faculty members to generate the research interest in the young minds. The discussion highlighted how to find the prospective problem and how the same can be applicable in paper presentations with novel solutions. In addition to the same, how the problems can meet to industry needs. The programme is proposed with 10 sessions with repute 8 academicians (8 sessions) and 1 Industry professional (2 sessions). The following are list of speakers Dr. Neeraj Kumar, Thapar University, Punjab, India, Dr. Munesh Kumar Chandra, NIT Agartala, Tripura, Dr. Ashok Kumar Das, IIIT Hyderabad, Dr. Bipin Kumar Rai, ABES Institute of Technology, UP, Dr. Ajoy Kumar Khan, Mizoram Central University, Aizawl, Dr. Sandeep Kr. Panda, ICFAI University, Hyderabad, Dr. Dinesh Kumar Saini, Manipal University, Jaipur, Dr. Hemraj Saini, Jaypee University of IT, H.P., Mr Tushar Sharma, Prolitus Company, Noida.

ML/DL by Using Colab and Knime – A Road Map

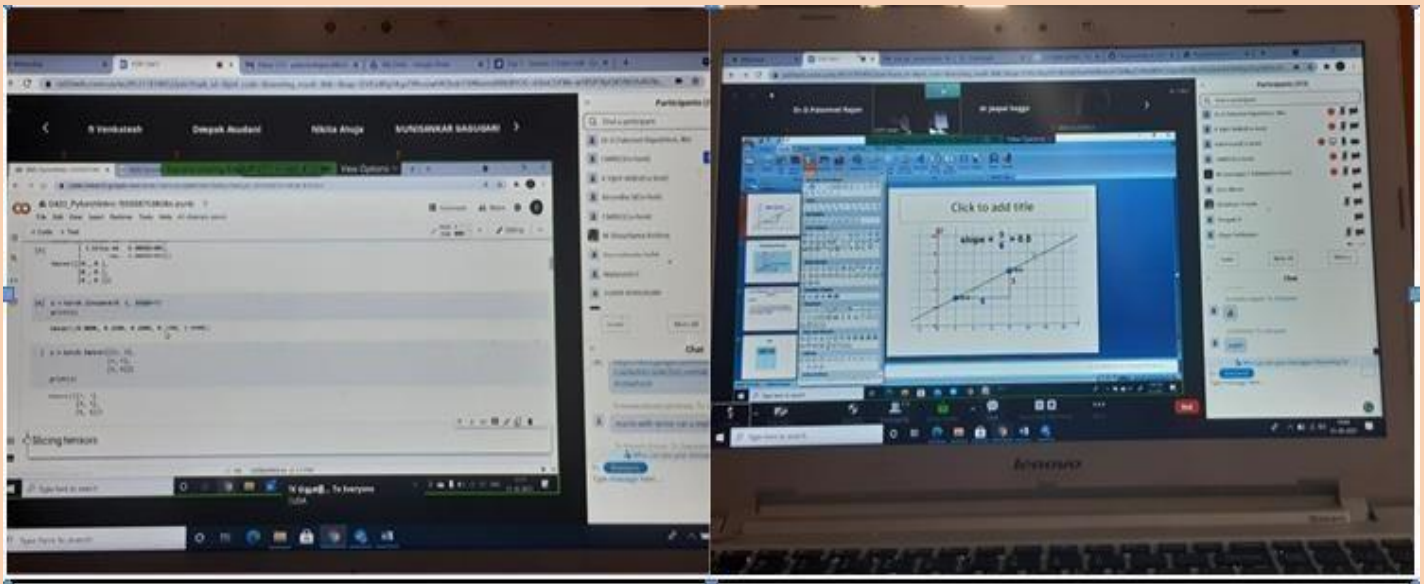

Total No. of Participants: 350

- This FDP brings about the Basic Concepts of Machine Learning and Deep learning with the implementation tool likes Python COLAB and Knime.

- In this FDP Speakers convey the information from the Basic Concepts of Machine Learning and Deep learning and also basics of Python Programming

- The following topics were discussed by the various resource persons
- List of the topics and details are attached in the Annexure-I

- The following topics were discussed by the various resource persons
- List of the topics and details are attached in the Annexure-I

Guest Lecture on “Metamorphic Cryptography”

Date of Event: 9.6.2021

Total No. of Participants: 160

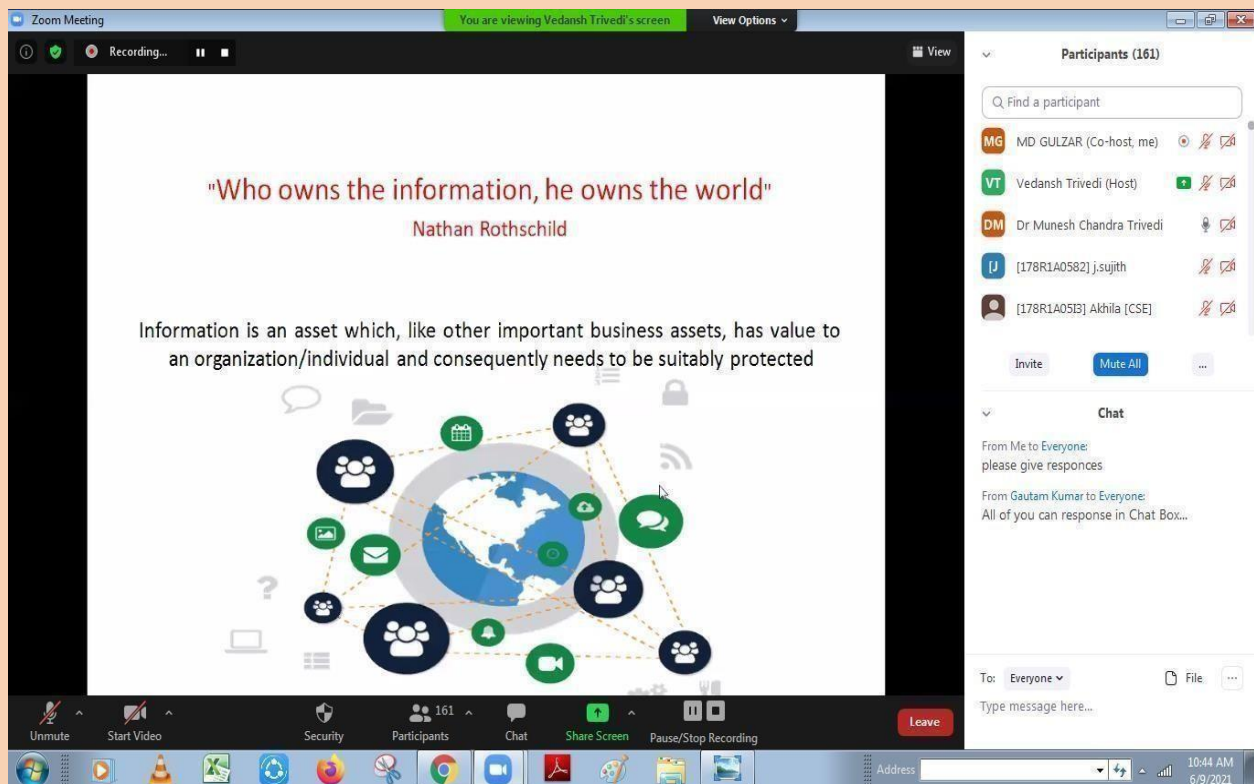

Aim & Objective:

Aim of the guest lecture is to bring awareness about cryptography among students

Description:

The Guest lecture on Metamorphic cryptography was conducted on 9th June 2021. The guest speaker was Dr. Munesh Chandra Trivedi from NIT Agartala.

The Guest has given presentation various security concepts. He brought awareness among students. A new area of research in the field of information security called as metamorphic cryptography was presented. Students and faculty gained good knowledge from this lecture.

Webinar On

“Coding with the Latest Industry Trend”

Date of Event: 19/06/2021

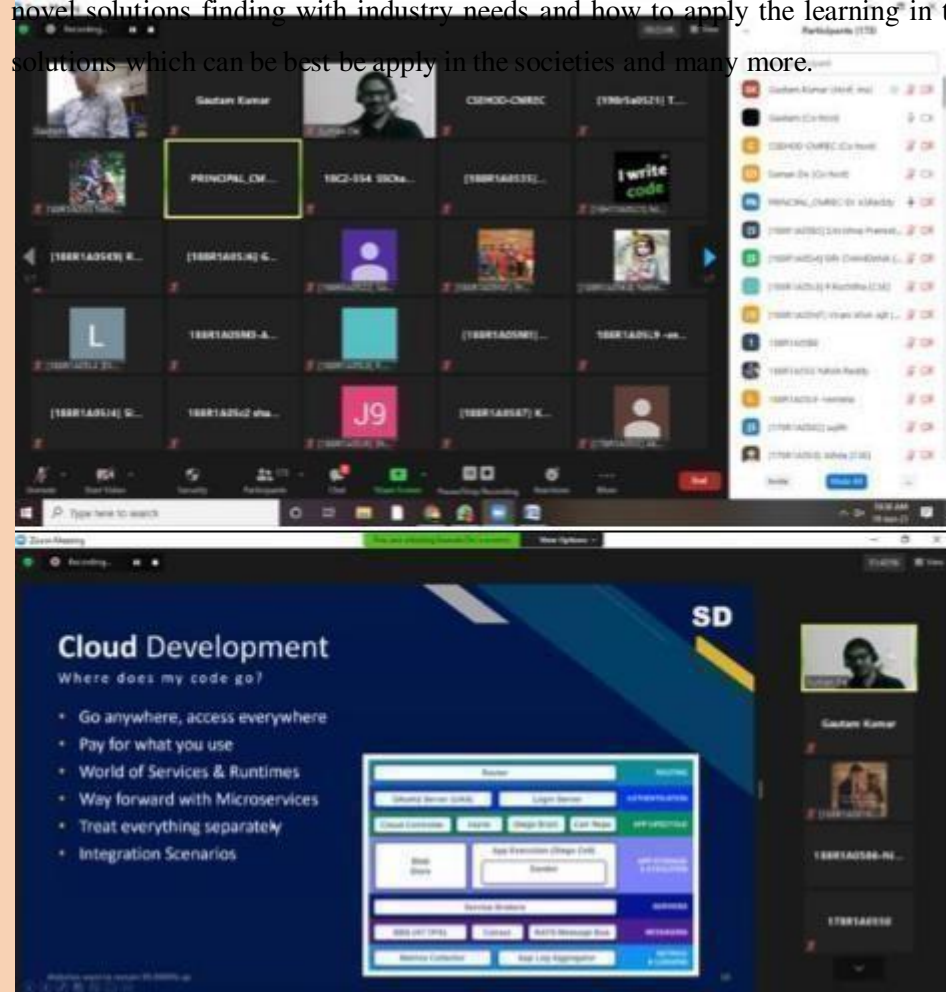

Total No. of Participants: 173(Registered)

Aim & Objective:

The major objective of the guest lecture is to minimize the knowledge gap required to Industries producing from the Institutes. Industry Institute Interaction Cell (IIIC) established in CMR Engineering College is having the responsibility to make linkages between industry-institute to utilize the same in benefits to students as a society. In relation to the same, the foremost objectives are to develop close links between Industry Academia for conducting Guest Lectures, joint research work, organizing seminars, symposium, Faculty exchanges between industry and academia, Identifying the present day requirements for professionals to meet the future demands, exhibitions and workshops with joint participation of industrial experts and institute departments.

Description:

The guest lecture was helpful to the students and faculty members to use thought-out process in multidisciplinary research objectives achievements and its collaborations. The discussion highlighted to find the prospective and novel solutions finding with industry needs and how to apply the learning in the institutions to create real-time solutions which can be best be apply in the societies and many more.

Webinar On “IoT Analytics”

Date of Event: 28-07-2021(Timing 2.30 P.M TO 4.00P.M)

Total No. of Participants: 70(Registered)

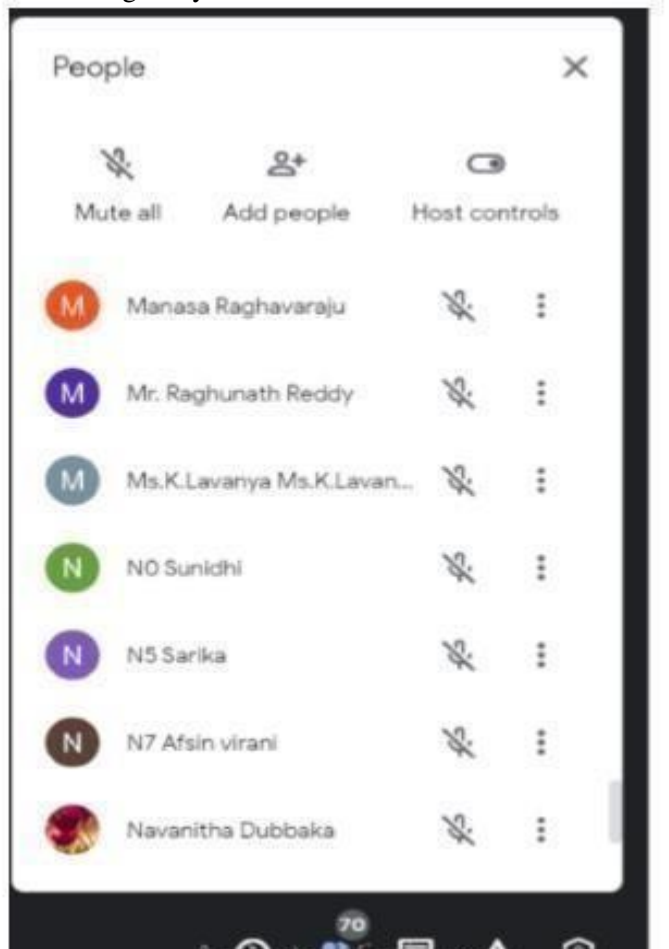

Aim & Objective: To analyze and understands the current IOT Analytics

Description:

To analyse about objective of IoT analytics and its application of data analysis tools and by connected Internet of Things devices. We discuss the benefits for the management of data centers and other facilities how it will use in retail and healthcare applications.

Description:

This specific Expert Talk gives good idea about the data analysis and how to do Data analytics provides users with the ability to easily pick up on patterns or trends within the information collected by their device. Discuss about The insight provided by the data analysis ensures a user is well equipped with the knowledge needed to make effective business or personal product decisions with confidence .We discuss about IoT analytics applications encompass edge and cloud analytics, big data management, connected devices, and streaming analytics

A.Krishna Prasad is presenting

Volume	Velocity	Variety	Veracity
Data at Rest	Data in Motion	Data in Many Forms	Data in Doubt
Tenacity to analyze existing data in process	Streaming data, milliseconds to seconds to respond	Structured, unstructured, text, multimedia	Uncertainty due to data inconsistency & incompleteness, ambiguities, missing, suspicious, model approximations

Webinar
On
Intellectual Property Rights (IPR)

Date of Event: 26.06.2021, Saturday

Total No. of Participants: 157

Total Faculty Participants: 112

Total Student Participants: 45

Aim & Objective:

To motivate Faculty(s) /Student (s) for IPR. In this event we motivate peoples for IPR. This event will clear all doubts of Faculty(s) /Student (s) regarding IPR.

Description:

Intellectual property (IP) refers to creations of the mind, such as inventions; literary and artistic works; designs; and symbols, names and images used in commerce.

IP is protected in law by, for example, patents, copyright and trademarks, which enable people to earn recognition or financial benefit from what they invent or create. By striking the right balance between the interests of innovators and the wider public interest, the IP system aims to foster an environment in which creativity and innovation can flourish.

Copyright is a legal term used to describe the rights that creators have over their literary and artistic works. Works covered by copyright range from books, music, paintings, sculpture and films, to computer programs, databases, advertisements, maps and technical drawings.

A patent is an exclusive right granted for an invention. Generally speaking, a patent provides the patent owner with the right to decide how - or whether - the invention can be used by others. In exchange for this right, the patent owner makes technical information about the invention publicly available in the published patent document.

A trademark is a sign capable of distinguishing the goods or services of one enterprise from those of other enterprises. Trademarks date back to ancient times when artisans used to put their signature or "mark" on their products.

An industrial design constitutes the ornamental or aesthetic aspect of an article. A design may consist of three-dimensional features, such as the shape or surface of an article, or of two-dimensional features, such as patterns, lines or color.

Geographical indications and appellations of origin are signs used on goods that have a specific geographical origin and possess qualities, a reputation or characteristics that are essentially attributable to that place of origin. Most commonly, a geographical indication includes the name of the place of origin of the goods.

Trade secrets are IP rights on confidential information which may be sold or licensed. The unauthorized acquisition, use or disclosure of such secret information in a manner contrary to honest commercial practices by others is regarded as an unfair practice and a violation of the trade secret protection.

Workshop

On

“Emerging Technologies (AI, IOT, Robotics)”

Date of Event: 25-09-2021

Total No. of Participants: 230

Aim & Objective:

The major objective of the Workshop is to presents towards the most demanding and Emerging technologies like **Artificial Intelligence (AI), Internet of Things (IOT), Robotics** where students need to work on real problems and its possible solutions in these emerging areas. The Session was in relation to change requirement where how to work on various Technologies available in order to find the solutions for the given problem using various techniques related to AI, IOT, Robotics. Therefore, participants can learn a broad range of current used Tools /Techniques with research motivations, contribution towards paper publications and value additions in the field of various real time applications related to like Healthcare, E-Commerce, Banking Sector etc, The Overall Workshop made the understand of how to deal with Real time problems using various AI, IOT Techniques in order to get solution.

Description

This specific Session Talk gives the overall basic Idea of AI, IOT, Robotics in respect to all various application where the students can able to solve the real time problems by using techniques. The speaker Mr. Amarender Katkam-CTO also demonstrated some real time examples how they able to change the model and work with the help of specific algorithms with the idea of Artificial Intelligence concepts followed by various examples which given a broad understanding of emerging technologies.

Machine learning and its multi-Disciplinary Applications**

Date of Event: 23-10-2021
Total No. of Participants: 120
Total No. of faculty Participants: 14
Total No. of student Participants: 106

Aim & Objective:

The main aim of guest lecture is to bring awareness on machine learning for second year students and bring the knowledge on various application platforms of machine learning.

Description

The Guest lecture was conducted to bring the awareness and knowledge about Machine learning and Artificial intelligence. And various applications. The Guest was from MufakkamJah college of Engineering. She was working as professor in the department of CSE. She briefly explained all the concepts of machine learning and its Applications. Students gained the knowledge on machine learning. And the lecture was very informative

“Data Analysis and Mining with Python”

Date of Event : 08/11/2021 to 12/11/2021 (5Days)
(Time: 10.00 AM- 12.30PM & 1.30 PM- 3.30PM)

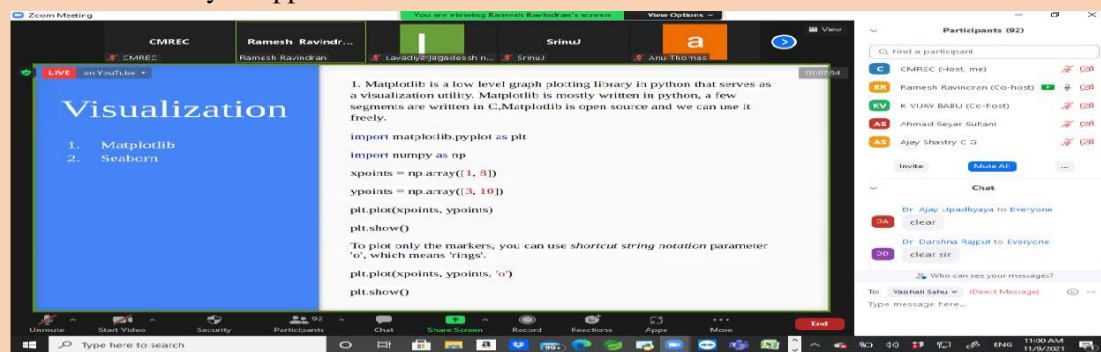

Total No. Of Participants : 400+
(Registered) Faculty Participants : Yes

Aim & Objective:

The major objective of the 5 Days Faculty Development Program (FDP) is presentation towards the most demanding technology Data Analysis and Mining using python where Faculty members need to work on problems and its possible solutions. The Session talks was in relation to change requirement where how to work on various datasets available in order to find out the accuracy for the given problem using various techniques related to Data Analysis and Mining. Therefore, participants can learn a broad range of current used Tools /Techniques with research motivations, contribution towards paper publications and value additions in the field of various real time applications related to like Healthcare, E-Commerce, Banking Sector etc, The Overall Expert talk made the understand of how to work with datasets using various Data Mining Techniques in order to get Accuracy as required using Python.

Description:

This specific Expert Talk for 5 Days gives the overall basic Idea of Data Mining, Data Analysis implementation using Python in all various datasets where the Faculty members can able to solve the real time problems by using techniques. The speaker also demonstrated the hands on experience on some real time examples how they able to change the model and work with the help of specific algorithms with the idea of various algorithms which refer the concepts followed by various examples which given a broad understanding of concepts like Working with Dataset of Sentiment Analysis application.

Workshop on “Entrepreneurship and Innovation as Career Opportunity”

Date of Event : 13-11-2021
Total No. of Participants 106
Total Faculty Participants : 6
Total Student Participants 100

Aim & Objective:

The main aim of Workshop is to bring awareness on Entrepreneurship for second year students and bring the knowledge on Entrepreneurship and Innovation as Career Opportunity.

Description

Students have awareness on Interpersonal skills & Entrepreneurship and critical & creative thinking skills and students have practical entrepreneurial skills & knowledge.

Webinar

On

“Artificial Intelligence and Its Impacts”

Title of Event : ARTIFICIAL INTELLIGENCE AND ITS IMPACTS

Date of Event : 20-11-2021(Timing 2.00 P.M TO 3.00 P.M)

Total No. of Participants : 100(Registered)

Student Participants : 98

Faculty Participants : 2

Aim & Objective: To analyze and understands the Artificial Intelligence and its Impact

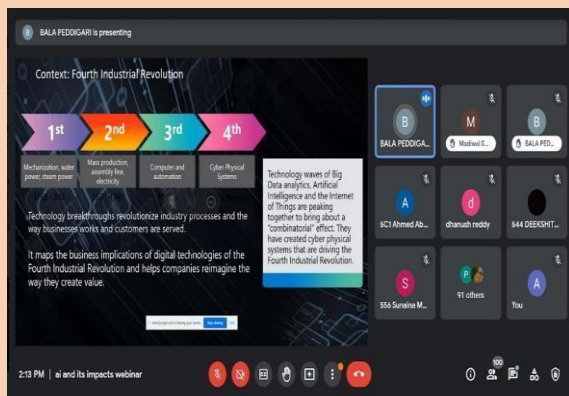

Description:

To analyse about objective of day Artificial Intelligence powers many programs and services that help us do everyday things such as connecting with friends, using an email program, or using a ride-share service.

Description:

This specific Expert Talk gives good idea about the data. Discuss about Artificial intelligence can dramatically improve the efficiencies of our workplaces and can augment the work humans can do . When AI takes over repetitive or dangerous tasks, it frees up the human workforce to do work they are better equipped for—tasks that involve creativity and empathy among others.

List of Participants (screenshots)

Workshop On “Intellectual Property Rights (IPRs) and IP management for startup” Workshop

Date of Event : 28-11-2021

Total No. of Participants 90

Total Faculty Participants 2

Total Student Participants 88

Aim & Objective:

The main aim of Workshop is to bring awareness on IPR and IP Management for Third year students.

Description

Giving broad idea about IPR and IP Management for start-up and its importance and also giving idea about process/useful steps for getting IPR approval for any start-up with useful links.

List of Participants (screenshots)

Guest Lecture On Web Applications based on Servlets and JSP

Date of Event	: 04-12-2021
Total No. of Participants	120
Total Faculty Participants	10
Total Student Participants	110

Aim & Objective:

The main aim of guest lecture is to bring awareness on servlets and JSP to create web based applications.

Description

The Guest lecture was conducted to bring the awareness and knowledge about Servlets and JSP. The Guest was from Dr. Vignesh janarthanan of MRITS.

He is working as professor in the department of IT. He had briefly explained all the concepts of JSP and Servlets. Students gained the knowledge on machine learning. And the lecture was very informative

STUDENTS CORNER

The Unuttered Words:

Why I end up messing all the time?
I am Sorry, if there is any wrong rhyme

So listen, in groups I always find myself stuck in a maze
Don't know when I would gather enough courage

Fear of being getting judged
Had always pulled me backward

I know constant complaining is of no worth
But tell me, from whom to confront

I am all geared up to give my best shot
But this inner fear will never let me break our knot

Everyone feel this is a common shit
But believe me I need someone to understand it

I also want be a part of someone's "We"
And I guess some of you still didn't get me

Okay let me give you an example to show what I feel
I will be gracefully walking in my favourite heel

The same unwanted scene will be directed in front of my eyes
I will lose my balance and will fall aside

You and your confidence is now on ground
Peeps feeling sorry with those laughing sound

You feel that embarrassment
Yeah that's what I meant

I know we all were, and will be in this phase
But why not always help our beloveds with a caring gaze

- ZAID AHMED KHAN
