DEPARTMENT OF COMPUTER SCIENCE N AND ENGINEERING

Advance Technology Laboratory (ATL)

Advanced Technology Laboratories are established to increase the awareness among engineering students about the latest technologies in practical oriented teaching methodology.

Objectives:

- Enhance the Practical Knowledge. [ATL1]
- Usage of Tools to meet the industry needs. [ATL2]

Method:

Under ATL third year students will learn an advanced technology which is being used by them but not taught as part of the syllabus.

- Students learned about CCNA Routing and Switching: Introduction to Networks, which is a online platform from cisco.
- Login accounts for students will be given on cisco website www.netacad.com
- Student progress will be monitored by the instructor.
- Hands on sessions will be practised by students
- After completion of each chapter an online assessment exam will be conducted.
- After completion of all chapter's final assessment will be conducted.
- Based on the final assessment certificates will be generated and mailed to succeeded students.

Benefits:

- Learn new things beyond the curriculum.
- Useful in attending any technical interview in placements.
- To Gain useful knowledge about a particular technology.
