CMREC INDUCTION PROGRAMME FOR B.TECH 1ST YEAR STUDENTS

A.Y: 2025-26

Engineering colleges were established to train graduates well in the branch/department of admission, have a holistic outlook, and have a desire to work for national needs and beyond. The graduating student must have knowledge and skills in the area of his/her study. However, they must also have broad understanding of society and relationships. Character needs to be nurtured as an essential quality by which he would understand and fulfill his responsibility as an engineer, a citizen and a human being. There is a mad rush for engineering today, without the student determining for himself his interests and his goals. This is the major factor in the current state of de-motivation towards studies that exists among UG students. To come out of this situation, a multi-pronged approach is needed. One will have to work closely with the newly joined students in making them feel comfortable, allow them to explore their academic interests and activities, reduce competition and make them work for excellence, promote bonding within them, build relations between teachers and students. Keeping this in mind institution has introduced “INDUCTION PROGRAMME” for newly joined students to make the students feel comfortable in their new environment, open them up, set a healthy daily routine, create bonding in the batch as well as between faculty and students, develop awareness, sensitivity and understanding of the self, people around them, society at large, and nature.

Induction programme- Objectives:

- To help them adjust to the new environment and inculcate in them the ethos of the institution with a sense of large purpose.
- To explore oneself and allows one to experience the joy of learning, stand up to peer pressure, take decisions with courage, need for character building and be sensitive to others.
- To expose the students for lectures by eminent people on Human values, ethics, communication skills, personality development and yoga session.
- Familiarization to Department, Branches, Subjects, Laboratories, Innovations & other facilities.
- Expose the students for creative arts (like dance, music and painting) and sports.
